INTERNET GAMING SPECIALIST WITH TECH FOCUS

Experience

- **Poker Player - 2004→ Present**
 - Played professionally/full-time 2006-2016
 - Lifelong student of the game, poker enthusiast
 - Strategy and content creator - [YouTubeChannel](#)
 - Enjoy attempting to handicap sports

Skills

HTML5 | CSS3 | JavaScript | ES6 | React | Node.js | jQuery | Sass | Materialize | Bootstrap
Ruby | Ruby on Rails | Sinatra | Git | GitHub | Heroku | Anaconda | SQLite3 | ActiveRecord

Projects

TromCards | [Demo/GitHub](#)

- Guess the missing card memory app
 - ES6, jQuery, bootstrap to remove, shuffle, and carousel random cards
 - Customized logic to randomize sound effects based on time of day

DocApptMaker | [Demo/GitHub](#)

- Ruby on Rails application to make appointments
 - Incorporated ActiveRecord for full CRUD functionality
 - Utilized JSON & XML APIs from MedlinePlus for ICD-9/medical condition reference

Education

- **NYCDA Web Development Intensive BootCamp Graduate, 10/2018**
 - Rigorous education that challenged me to think in different ways
- **M.D. Rutgers New Jersey Medical School, 2004**
 - Became a doctor. Kinda. Ok, I'm not a doctor, but somehow have the degree.
- **B.S. Biology, UNC - Chapel Hill, 2000**
 - Joined a fraternity, learned to socialize, got good grades
